

## Rescoring Service | QuickScore

Lenders often must wait weeks for a loan applicant's credit score to be revised once credit disputes have been resolved. **QuickScore** speeds up the process, providing an updated score within days so you can close deals faster.

At Kroll Factual Data, we specialize in supporting all phases of the lending process. Our **QuickScore** service offers you one of the fastest ways to update the credit reports and scores of loan applicants once they have settled their differences with creditors.

### How QuickScore Works

As soon as you receive acceptable documentation from a loan applicant confirming the resolution of credit disputes, you fax the documentation and an order form to us requesting a **QuickScore**.

We then have the credit bureau(s) update the applicant's credit report and recalculate their credit score. We then inform you that the applicant's credit file has been refreshed and is ready for your review.

Although most reports are returned within three to four days, return time can vary based on credit bureau response time.

### The Kroll Factual Data Advantage

**QuickScore** offers you a significant edge in the marketplace, improving your chances of retaining loan applicants and converting them into customers as soon as they qualify for your most attractive rates.

## Why QuickScore?

### Fast Results

We know that the sooner you have an applicant's updated credit data, the sooner you can offer that applicant more attractive loan rates and the faster you can close the deal. That's why our **QuickScore** service updates the credit data of your loan applicants within days.

### A Single Report

Once we've updated your applicant's credit file, you will receive an email indicating that your QuickScore request has been completed. You can then view the updated credit file by ordering our real-time Bureau Express credit report, which combines the data from all three credit bureaus into one, easy-to-understand online document.

### Matching Underwriter Systems

After you've updated an applicant's credit file using **QuickScore** and reviewed the applicant's file using Bureau Express, the data can be reissued in a variety of underwriting systems including Fannie Mae's Desktop Underwriter and Freddie Mac's Loan Prospector.

### A Solution that Sells

**QuickScore** can be promoted to loan applicants as a service you offer to help them qualify for better rates once their disputes are resolved.
